

BENEFITS

- **Surge Protection & Battery Backup:** Available in 500VA, 700VA, 1000VA, or 1500VA; 120VAC
- **10 Total Outlets & USB:** 5 surge only & 5 battery & surge outlets with built in USB device charging port
- **Excellent Warranty:** 3-year full unit coverage including the battery with no-hassle, advanced replacement warranty
- **LCD Display:** User friendly LCD display screen on front of unit for easily monitoring estimated run time, load capacity, battery status, and input/output voltage and frequency
- **Consistent Power:** Uses line-interactive, AVR technology (Automatic Voltage Regulation), which ensures consistent and clean power at all times
- **Energy Star:** A government-backed symbol that is awarded to energy efficiency products that meet eco-friendly requirements

Liebert PSA5 is perfect for protecting:

- Desktop Computers
- Gaming Consoles
- Workstations and Monitors
- Wi-Fi Routers
- Surveillance Systems
- A/V equipment
- POS Terminals
- Other Important Electronics

Designed with easy controls for user friendly operation, the Liebert® PSA5 UPS and battery backup provides ample run time to save work in progress and shutdown your equipment in an orderly fashion.

Keep Your Electronics Safe & Running with Liebert PSA5 UPS

Power surges and the sudden loss of power can damage computers, televisions, and other electronics. Power strips are only equipped with handling protection from power surges. It does not protect against brownouts, blackouts or drops in voltage. If you want the ultimate protection of household or business electronics, you need the Liebert PSA5 UPS to protect against power supply interruptions.

The Energy Star certified PSA5 is an economical, line-interactive UPS battery backup technology designed with the features you need for reliable power protection for small office/home office computers, network gear, and home entertainment equipment. With built in USB port, included USB cable and with available software you can receive remote alerts and complete an unattended orderly shutdown of your systems. This Liebert battery backup is easy to set up and perfect for televisions, computers, modems/routers, home surveillance, entertainment equipment, and all other electronics.

Vertiv Power Assist

Vertiv™ Power Assist is free software used to perform a controlled shutdown of an IT device when the UPS battery backup experiences a threatening condition. The UPS is directly connected to IT equipment via a USB cable, enabling the software to notify users of an event, display key metrics, and log historical data. It is easy to install and protects computers from damage and data loss during a power event.
